

EARTH AND PLANETARY SCIENCES

Agee, Carl

“Compressibility of water in magma and the prediction of density crossovers in mantle differentiation,” *Phil Trans A*, Royal Society, London, UK, v. 366, pp. 4239-4252 (2008).

“Static compression of hydrous silicate melt and the effect of water on planetary differentiation,” *Earth and Planetary Science Letters*, v. 265, pp. 641-654 (2008).

“The Fe-C system at 5 GPa and implications for Earth's core,” *Geochimica et Cosmochimica Acta* 72, v. 16, pp. 4146-4158 (2008). Coauthors: N.L. Chabot, A.J. Campbell, W.F. McDonough, D.S. Draper, M. Humayun, H. Denniston, Rhawn F; Asmerom, Yemane; Polyak, Victor Y; McNeill, Donald F; Klaus, James S; Cole, Peter; Budd, Ann F, 2008,.C. Watson, E. Cottrell and S.A. Saslow.

Asmerom, Yemane

“Speleothems,” *Encyclopedia of Paleoclimatology and Ancient Environments*, pp. 916-918 (2008).

“Age and evolution of the Grand Canyon revealed by U-Pb dating of water table-type speleothems,” *Science*, v. 319, no. 5868, pp. 1377-1380 (2008). Coauthors: V.J. Polyak and C. Hill.

Response to Comments on the “Age and Evolution of the Grand Canyon Revealed by U-Pb Dating of Water Table-Type Speleothems,” *Science*, v. 321, pp. 1634 (2008). Coauthors: V.J. Polyak and C. Hill.

“Caribbean chronostratigraphy refined with U-Pb dating of a Miocene Coral,” *Geology*, v. 36, no. 2, pp. 151-154 (2008). Coauthors: R.F. Denniston, V.J. Polyak, Y. McNeill, F. Donald, J.S. Klaus, P. Cole, and A.F. Budd.

Brearley, Adrian

“Mineralogy, aqueous alteration and primitive textural characteristics of fine-grained rims in the Y791198 CM2 carbonaceous chondrite: TEM observations and comparison to ALH81002,” *Geochimica et Cosmochimica Acta*, v. 71, pp. 602-625 (2008). Coauthor: L.J. Chizmadia.

“A TEM study of thermally modified Comet 81P/Wild 2 dust particles by interactions with the aerogel matrix during the Stardust capture process,” *Meteoritics and Planetary Science*, v. 43, pp. 97-120 (2008). Coauthors: H. Leroux, F.J.M. Rietmeijer, M.A. Velbel, D. Jacob, F. Langenhorst, J.C. Bridges, T.J. Zega, R.M. Stroud, P. Cordier, R.P. Harvey, M. Lee, M. Gounelle and M.E. Zolensky.

“Characterization of micron-sized Fe,Ni metal grains in fine-grained rims In the Y-791198 CM2 carbonaceous chondrite: Implications for asteroidal and preaccretionary models for aqueous alteration,” *Meteoritics and Planetary Science*, v. 43, pp. 1419-1438 (2008). Coauthors: L.J. Chizmadia, Y. Xu, and C. Schwappach.

“Oxygen Isotopes In Chondritic Components,” *Reviews in Mineralogy and Geochemistry*, Mineralogical Society of America, Washington D.C., v. 68, pp. 141-186 (2008). Coauthors: H. Yurimoto, A.N. Krot, B.-G. Choi, J. Aleon and T. Kunihiro.

Crossey, Laura J.

“Molecular Characterization of the Diversity and Distribution of a Thermal Spring Microbial Community using rRNA and Functional Genes,” *Applied and Environmental Microbiology*, v. 74, pp. 4910-4922 (2008). Coauthors: J.R. Hall, K.R. Mitchell, O. Jackson-Weaver, A. Kooser, B. Cron and C.D. Takacs-Vesbach.

“Model for tectonically driven incision of the less than 6 Ma Grand Canyon,” *Geology*, v. 36, pp. 835-838 (2008). Coauthors: K.E. Karlstrom, R. Crow, D. Coblenz and J. van Wijk.

“Informal geoscience education on a grand scale: the Trail of Time exhibition at Grand Canyon,” *Journal of Geoscience Education*, 56(4), pp. 354-361 (2008). Coauthors: K.E. Karlstrom, S. Semken, D. Perry, E.D., Gyllenhaal, J. Dodick, M. Williams, J. Hellmich-Bryan, R. Crow, N. Bueno Watts and C. Ault. Elrick, Maya

“C-isotope stratigraphy and paleoenvironmental changes across OAE2 (mid-Cretaceous) from shallow-water platform carbonates of southern Mexico,” *Earth and Planetary Science Letters*, v. 277, pp. 295-306 (2008). Coauthors: R. Molina-Garza, R. Duncan and L. Snow.

Fawcett, Peter J.

“Millennial- and centennial-scale vegetation and climate changes during the Late Pleistocene and Holocene from northern New Mexico (USA),” *Quaternary Science Reviews*, v. 27, pp. 1448-1452 (2008). Coauthors: G. Jiménez-Moreno and R.S. Anderson.

Fischer, Tobias

“Chemical evolution of thermal waters and changes in the hydrothermal system after the November 2002 eruption in the Papandayan volcano (West Java, Indonesia),” *Journal of Volcanology and Geothermal Research*, v. 178, pp. 276-286 (2008). Coauthors: A. Mazot, A., Bernard, S. Inguaggiato and I.S. Sutawidjaja.

“Hydrogen isotopes in Mariana arc melt inclusions: implications for subduction dehydration and the deep-Earth water cycle,” *Earth and Planetary Science Letters*, v. 275, pp. 138-145 (2008). Coauthors: A.M. Shaw, E. Hauri, D.R. Hilton and K.H. Kelly.

“Evolution, transfer and release of magmas and volcanic gases: an introduction,” *Journal of Volcanology and Geothermal Research*, v-vii, p. 178 (2008). Coauthors: G.F. Zellmer and C-H Chen.

“Fumarole compositions and mercury emissions from the Tatun Volcanic Field, Taiwan: Results from real time measurements and direct sampling techniques,” *Journal of Volcanology and Geothermal Research*, v. 178, pp. 636-643 (2008). Coauthors: M. Witt, M.D. Pyle, T.F. Yang and G.F. Zellmer.

“Chlorine isotope variations across the Izu-Bonin-Mariana arc,” *Geology*, v. 36, pp. 883-886 (2008). Coauthors: J.D. Barnes and Z.D. Sharp.

“Aqueous and isotope geochemistry of mineral springs along the southern margin of the Tibetan plateau - Implications for fluid sources and regional degassing of CO₂,” *Geochem. Geophys. Geosyst*, 9, Q08014 (2008). Coauthors: D.L. Newell, M.J. Jessup, J.M. Colte, D.R. Hilton and Z.D. Sharp.

“Volatile fluxes (H₂O, CO₂, N₂, HCl, HF) from arc volcanoes,” *Geochemical Journal*, v. 42, pp. 21-38 (2008).

Galewsky, Joseph

“Orographic Clouds in Terrain-Blocked Flows: An Idealized Modeling Study,” *Journal of Atmospheric Science*, v. 65, pp. 3460-3478 (2008).

“Climate Over Landscapes,” *Eos Transaction*, AGU, 89(16), (2008). Coauthors: G. Roe, R. Anderson, G. Meyer and G. Flowers.

Geissman, John W.

“Stratigraphic, Volcanic, and Anisotropy of Magnetic Susceptibility Data bearing on the source and transport direction of mid-Tertiary ash flow tuffs, Candelaria Hills area, west-central Nevada,” *Bulletin of Volcanology* (2008). Coauthor: M.S. Petronis.

“Evolution and strain reorganization within late Neogene structural stepovers linking the central Walker Lane and northern Eastern California Shear Zone, western Great Basin,” *International Geology Review*, v. 50, pp. 1-21 (2008). Coauthors: J.S. Oldow and D. Stockli.

“Paleomagnetism and geochronology of sills of the Poe Mountain area, southwest Montana: Implications for the timing of fold and thrust belt deformation and vertical axis rotations along the southern margin of the Helena salient,” *Geological Society of America Bulletin*, v. 120, pp. 1091-1104 (2008). Coauthors: S.S. Harlan, C.J. Schmidt and S.C. Whisner.

“Paleomagnetism of Proterozoic mafic dikes from the Tobacco Root Mountains, Southwest Montana,” *Precambrian Research*, v. 163, pp. 239-264 (2008). Coauthors: S.S. Harlan and L. Sneek.

“Anisotropy of magnetic susceptibility, paleomagnetic, and petrographic data bearing on the emplacement of the Western Granite, Isle of Rum, NW Scotland: Insights into the origin and emplacement of felsic magma bodies,” *Geological Magazine* (2008). Coauthors: M.S. Petronis, B. O'Driscoll, V.R. Troll and C.H. Emeleus.

“⁴⁰Ar/³⁹Ar dating links Albuquerque Volcanoes to the Pringle Falls excursion and the Geomagnetic Instability Time Scale,” *Earth and Planetary Science Letters*, v. 267, pp. 584-595 (2008). Coauthors: B.S. Singer, B.R., Jincha, B.T. Kirby and E. Herrero-Bervera.

Gutzler, David

“US CLIVAR Drought Predictability Research,” *CLIVAR Exchanges*, 13(1), pp. 33-34 (2008). Coauthors: D. Legler and S. Schubert.

“Atmospheric simulations of the 2004 North American Monsoon Circulation (NAMAP2),” *CLIVAR Exchanges*, 13(2), pp. 6-8 (2008).

Karlstrom, Karl E.

“Model for tectonically driven incision of the less than 6 Ma Grand Canyon,” *Geology*, v. 36, no. 11, p. 835-838, 36 (2008). Coauthors: R. Crow, L.J. Crossey, D. Coblenz and J. van Wijk.

“Informal geoscience education on a grand scale: the Trail of Time exhibition at Grand Canyon,” *Journal of Geoscience Education*, v. 56, no. 4, pp. 354-361 (2008). Coauthors: S. Semken, L.J. Crossey, D. Perry, E.D. Gyllenhaal, J. Dodick, M. Williams, J. Hellmich-Bryan, R. Crow, N. Bueno Watts and C. Ault.

“History of Quaternary volcanism and lava dams in western Grand Canyon based on LIDAR analysis, $^{49}\text{Ar}/^{39}\text{Ar}$ dating, and field studies: Implications for flow stratigraphy, timing of volcanic events, and lava dams,” *Geosphere*, v. 4, no. 1(2008). Coauthors: R. Crow, W. McIntosh, L. Peters and N. Dunbar.

“Assembly, configuration, and break-up history of Rodinia: a synthesis,” *Precambrian Research*, v. 160, pp. 179-210 (2008). Coauthors: Z.X. Li, S.V. Bogdanova, A.S. Collins, A. Davidson, B. De Waele, R.E. Ernst, I.C.W. Fitzsimons, R.A. Fuck, D.P. Gladkochub, J. Jacobs, S. Lu, L.M. Natapov, V. Pease, S.A. Pisarevsky, K. Thrane and V. Vernikovsky.

Kues, Barry

“The Paleontology of New Mexico,” *University of New Mexico Press*, 428 pp. (2008).

“A feather from the Upper Cretaceous (lower Campanian) Point Lookout Sandstone, San Juan Basin, New Mexico,” *Cretaceous Research* (2008). Coauthors: T.E. Williamson, G.S. Weissmann, T.A. Stidham and S.L. Yurchyk.

“Geology of the southern Gila Wilderness, Second-day road log from Silver City to Lake Roberts via San Lorenzo,” *Geology of the Gila Wilderness-Silver City Area* (G. Mack et al., eds.), *New Mexico Geological Society*, Field Conference Guidebook 59, pp. 27-35 (2008). Coauthors: G.H. Mack, K.A. Giles and V.T. McLemore.

“Paleontology and age of the Pennsylvanian Oswaldo and Syrena Formations,” *Geology of the Gila Wilderness-Silver City Area* (G. Mack et al., eds.), *New Mexico Geological Society*, Field Conference Guidebook 59, pp. 36-38 (2008).

“Early geological studies in southwestern and south-central New Mexico,” *Geology of the Gila Wilderness-Silver City Area* (G. Mack et al., eds.), *New Mexico Geological Society*, Field Conference Guidebook 59, pp. 77-106 (2008).

[Review of] “The Mountains of New Mexico,” by Robert Julyan, photographs by Carl Smith, *New Mexico Historical Review*, v. 83, pp. 230-231 (2008).

McFadden, Leslie D.

“The influence of bedrock weathering in the response of drainage basins and associated alluvial fans to Holocene climates,” *The Holocene*, v. 18, no. 6, pp. 1-12 (2008). Coauthor: M.C. Eppes.

“Aspect-related microclimatic influences on slope forms and processes, northeastern Arizona,” *Journal of Geophysical Research*, v.113, F03002 (2008). Coauthors: B. Burnett and G. Meyer.

“Dendrogeomorphically derived slope response to decadal and centennial scale climate variability,” Black Mesa, Arizona, USA, *Natural Hazards Earth Systems Science*, v. 8, pp. 869-880 (2008). Coauthors: L. Scuderi and J. McAuliffe.

Meyer, Grant

“Aspect controls on hillslope geomorphology and implications for slope evolution, northeastern Arizona,” *Journal of Geophysical Research – Earth Surface*, v. 113, F03002 (2008). Coauthors: B.N. Burnett and L.D. McFadden.

“Late Holocene records of fire in alluvial fan sediments: fire-climate relationships and implications for management of Rocky Mountain forests,” *International Journal of Wildland Fire*, v. 17, pp. 84-95 (2008). Coauthor: J.L. Pierce.

“Relative size of fluvial and glaciated valleys in central Idaho,” *Geomorphology*, v. 93, pp. 537-547 (2008). Coauthors: B.E. Amerson and D.R. Montgomery.

“Postglacial inflation-deflation cycles, tilting, and faulting in the Yellowstone caldera based on Yellowstone Lake shorelines,” Chapter E, in L.A. Morgan, ed., *Integrated Geoscience Studies in the Greater Yellowstone Area—Volcanic, Tectonic, and Hydrothermal Processes in the Yellowstone Geocosystem*, *U.S. Geological Survey Professional Paper*, v. 1717, pp. 128-168 (2008). Coauthors: K.L. Pierce, K.P. Cannon, M.J. Trebesch and R.D. Watts.

“Changes in fire activity since the Last Glacial Maximum: an assessment based on a global synthesis and analysis of charcoal data,” *Climate Dynamics*, v. 30, pp. 887-907 (2008). Coauthors: M.J. Power, J. Marlon, N. Ortiz, P.J. Bartlein, S.P. Harrison, F.E. Mayle, A. Ballouche, R. Bradshaw, C. Carcaillet, C. Cordova, S., et al.

Nyman, Matthew

“Science Teacher Training: The Role of Universities,” *Eos Transactions, American Geophysical Union*, v. 89, no. 50, p. 514 (2008). Coauthors: A.L. Ellwein, L.D. McFadden and J.W. Geissman.

Polyak, Victor

Response to comments on the “Age and evolution of the Grand Canyon revealed by U-Pb dating of water table-type speleothems,” *Science*, v. 321, 1634d (2008). Coauthors: C.A. Hill and Y. Asmerom.

“Age and Evolution of the Grand Canyon Revealed by U-Pb Dating of Water Table–Type Speleothems,” *Science*, v. 319, pp. 1377-1380 (2008). Coauthors: C.A. Hill and Y. Asmerom.

“Caribbean chronostratigraphy refined with U-Pb dating of a Miocene coral,” *Geology*, v. 36, pp. 151-154 (2008). Coauthors: R.F. Denniston, Y. Asmerom, D.F. McNeill, J.S. Klaus, P. Cole and A.F. Budd.

Pun, Aurora

“A deep metastable eutectic iron–aluminate,” *Chemical Physics Letters*, v. 458, pp. 355-358 (2008). Coauthors: F.J.M. Rietmeijer and J.A. Nuth.

“A Refractory Ca-SiO-H₂-O₂ vapor condensation experiment with implications for calciosilica dust transforming to silicate and carbonate minerals,” *Icarus*, v. 195, no. 1, pp. 493-503 (2008). Coauthors: F.J.M. Rietmeijer, Y. Kimura and J.A. Nuth III.

Rietmeijer, Frans J.M.

“A refractory Ca-SiO-H₂-O₂ vapor condensation experiment with implications for calciosilica dust transforming to silicate and carbonate minerals,” *Icarus*, v. 195, pp. 493-503 (2008). Coauthors: A. Pun, Y. Kimura and J.A. Nuth III.

“Origin and formation of iron-silicide phases in the aerogel of the Stardust mission,” *Meteoritics and Planetary Science*, v. 43, pp. 121-134 (2008). Coauthors: T. Nakamura, A. Tsuchiyama, K. Uesugi, T. Nakano and H. Leroux.

“A deep metastable eutectic iron-aluminate,” *Chemical Physics Letters*, v. 458, pp. 355-358 (2008). Coauthors: A. Pun and J.A. Nuth III.

“Natural variations in comet-aggregate meteoroid compositions,” *Earth, Moon, and Planets*, v. 102, pp. 461-471 (2008).

“Understanding the comet Wild 2 mineralogy in samples from the Stardust Mission,” *Powder Diffraction Journal*, v. 23, pp. 74-79 (2008).

“Carbon in meteoroids: Wild 2 dust analyses, IDPs and cometary dust analogues,” *Earth, Moon, and Planets*, v. 102, pp. 473-483 (2008). Coauthor: A. Rotundi.

“A comparison of chemistry and dust cloud formation in ultracool dwarf model atmospheres,” *Monthly Notices Royal Astronomical Society*, v. 391, pp. 1854-1873 (2008). Coauthors: Ch. Helling, A. Ackerman, F. Allard, M. Dehn, P. Hauschildt, D. Homeier, K. Lodders, M. Marley, T. Tsuji and P. Woitke.

“A TEM study of thermally modified comet 81P/Wild 2 dust particles by interactions with the aerogel matrix during the Stardust capture process,” *Meteoritics and Planetary Science*, p. 43, pp. 97-120 (2008). Coauthors: H. Leroux, M.A. Velbel, A.J. Brearley, D. Jacob, F. Langenhorst, J.C. Bridges, T.J. Zega, R.M. Stroud, P. Cordier, R.P. Harvey, M. Lee, M. Gounelle and M.E. Zolensky.

“Comparing Wild 2 particles to chondrites and IDPs,” *Meteoritics and Planetary Science*, v. 43, p. 261-272 (2008). Coauthors: M. Zolensky, K. Nakamura-Messenger, J. Sverdrup, H. Leroux, T. Mikouchi, K. Ohsumi, S. Simon, L. Grossman, T. Stephan, M. Weisberg, et al.

“Natural variations in comet-aggregate meteoroid compositions,” *Advances in Meteoroid and Meteor Science* (J.M. Trigo-Rodriguez, J. Llorca and D. Janches, eds.), pp. 461-471(2008), Springer Dordrecht, the Netherlands.

“Carbon in Meteoroids: Wild 2 dust analyses, IDPs and cometary dust analogues,” *Advances in Meteoroid and Meteor Science* (J.M. Trigo-Rodriguez, J. Llorca and D. Janches, eds.), pp. 473-483 (2008), Springer Dordrecht, the Netherlands. Coauthor: Rotundi.

Scuderi, Louis

“Dendrogeomorphically derived slope response to decadal and centennial scale climate variability: Black Mesa, Arizona, USA,” *Natural Hazards and Earth System Science* v. 8, pp. 869-880 (2008). Coauthors: L.D. McFadden and J. R. McAuliffe.

“MODIS-derived NDVI Characterisation of Drought-Induced Evergreen Dieoff in Western North America,” *Geographical Review (Australia)*(2008). Coauthor: A. Yuhas.

Selverstone, Jane

“Microtextural constraints on the interplay between fluid-rock reactions and deformation,” *Contributions to Mineralogy and Petrology*, v. 156, pp. 501-515 (2008). Coauthor: A. Ault.

Smith, Gary A.

“First-day questions for the learner-centered classroom,” *National Teaching and Learning Forum*, v. 17, no. 5, pp. 1-4 (2008).

Sharp, Zachary

“Two chloride sources in soils of the McMurdo dry valleys, Antarctica,” *Journal of Geophysical Research*, v. 113, D03, D03301 (2008). Coauthors: H. Bao, J.D. Barnes and D.R. Marchant.

“Chlorine isotope variations across the Izu-Bonin-Mariana arc,” *Geology*, v. 36, pp. 883-886 (2008). Coauthors: J.D. Barnes and T.P. Fischer.

“A field and laboratory method for monitoring the concentration and isotopic composition of soil CO₂,” *Rapid Comm. Mass Spec.* v. 22, pp. 449-454 (2008). Coauthor: D. Breecker.

“Seasonal bias in the formation and stable isotope composition of pedogenic carbonate in modern soils from central New Mexico, USA,” *Geological Society of American Bulletin*, v. 121, pp. 630-640 (2008). Coauthors: D. Breecker and L.D. McFadden.

“Aqueous and isotope geochemistry of mineral springs along the southern margin of the Tibetan Plateau; implications for fluid sources and regional degassing of CO₂,” *Geochemistry, Geophysics, Geosystems*, v. 9, (2008). Coauthors: D.L. Newell, M.J. Jessup, J.M. Cottle, D.R. Hilton and T.P. Fischer.

“Cl-derived argon isotope production in the CLICIT facility of OSTR reactor and the effects of the Cl correction in ⁴⁰Ar/³⁹Ar geochronology,” *Chemical Geology*, v. 255, pp. 463-466 (2008). Coauthors: P.R. Renne and M.T. Heizler.

“Late Holocene storm-trajectory changes inferred from the oxygen isotope composition of lake diatoms, south Alaska,” *Journal of Paleolimnology* (2008). Coauthors: C.J. Schiff, D.S. Kaufman, A.P. Wolfe and J. Dodd.

Comment to “Chlorine stable isotopes and halogen concentrations in convergent margins with implications for the Cl isotopes cycle in the ocean,” by Wei et al.; a review of the Cl isotope composition of serpentinites and the global chlorine cycle, *Earth and Planetary Science Letters*, v. 274, pp. 531-534 (2008). Coauthor: J.D. Barnes.

“A unique glimpse into asteroidal melting processes in the early solar system from the Graves Nunatak 06128/06129 achondrites,” *American Mineralogist*, v. 93, pp. 1937-1940 (2008). Coauthors: C.K. Shearer, P.V. Burger, C.R. Neal, L.E. Borg, L. Spivak-Birndorf, M. Wadhwa, J.J. Papike, J.M. Karner, A.M. Gaffney, J. Shafer, B.P. Weiss, J.W. Geissman and V.A. Fernandes.

Wawrzyniec, Timothy F.

“Describing the dimensionality of geospatial data in the earth sciences – Recommendations for nomenclature,” *Geosphere*, v. 4, no. 2, pp. 354-359 (2008). Coauthors: R.R. Jones, N.S. Holliman, K.J.W. McCaffrey, J. Imber and R.E. Holdsworth.

“Major structural elements of the Miocene section, Burgos Basin, northeastern Mexico,” *AAPG Bulletin*, v. 92, no. 11, pp. 1479-1499 (2008). Coauthors: J.J. Hernandez-Mendoza, M.V. DeAngelo and T.F. Hentz.

“Miocene Chronostratigraphy, paleogeography, and play framework of the Burgos Basin, southern Gulf of Mexico,” *AAPG Bulletin*, v. 92, no. 11, pp. 1501-1535 (2008). Coauthors: J.J. Hernandez-Mendoza, T.F. Hentz, M.V. DeAngelo, S. Sakurai, S.C. Talukdar and M.H. Holtz.

Weissmann, Gary

“An Upper Cretaceous (lower Campanian) feather from the Point Lookout Sandstone, northwestern New Mexico,” *New Mexico Geology*, v. 30, p. 61 (2008). Coauthors: T.E. Williamson, B.S. Kues, T.A. Stidham and S.L. Yurchyk.
