

Huron Research Suite

Lobo Researchers and ECC Users,

We have identified some payroll data load errors for the January-June 2026 effort period. We are currently working to get this fixed.

Please do not complete any "Pre-Reviews" or "Certifications" until you get the notification from Effort Reporting that the ECC System has been corrected and you can resume to review or certify.

Thank you for your patience as we work to get this resolved.

Thank you,

The Effort Certification Team
